Travel awards

The Serotonin Club is proposing to make a limited number of travel awards available to pre- and post-doctoral students who are authoring communications to the Porto meeting. The size of the award is not yet finalized but will always cover the cost of registration and will, subject to funds available, also try and assist with travel and accommodation costs.

Awards will be available to applicants who are pre-doctoral or no more than 3 years post-doctoral and will be competitive. The awards will be decided on the basis of the quality of the submitted abstract by the organisers, whose decision will be final.

Please submit all applications to the Secretary/Treasurer (address shown below), together with a copy of the abstract and a covering letter from the applicant's Head of Department who should confirm the applicants age, academic status and the fact that sufficient funding is not available from any other source. *Applicants must be members of the Serotonin Club.*

Submissions must be received by 31st January 2004. Successful applicants will be informed shortly thereafter. If applicants are not successful they will be able to withdraw their registration without penalty.

Subscriptions

Members worldwide whose subscription becomes due during 2004 will be notified early in the New Year. Please send your payment as soon as possible as this avoids the time and costs incurred in sending out further reminders. Members whose subscriptions are two or more years overdue will be terminated!!
